

GOVERNMENT INITIATIVES

Broadband Equity, Access, and Deployment (BEAD) Program

This program addresses the digital divide in America by funding planning, infrastructure deployment, and digital adoption initiatives. BEAD's mission is to provide high-speed internet access to unserved and underserved areas across the United States.

GenXC Group is dedicated to making the BEAD Program's vision of "Internet for All" a reality. We leverage our comprehensive expertise in **infrastructure planning, engineering, and deployment** to ensure that high-speed internet becomes accessible to all communities, including the most remote and underserved areas. By working closely with state and local governments, we provide solutions tailored to meet specific community needs.

OUR SERVICES AND COMPLIANCE

Surveying & Planning

Engineering & Design

Construction & Installation

Maintenance & Support

- ✓ Adherence to Occupational Safety and Health Administration (**OSHA**), providing safe working environments and fair labor practices on all job sites.
- ✓ Following guidelines to ensure **digital inclusivity**, prioritizing accessibility for all individuals, including those in rural and economically disadvantaged areas.
- ✓ Strict adherence to BEAD program **procurement guidelines** and transparent reporting practices to ensure accountability and proper use of federal funds.

With extensive experience in broadband infrastructure projects, GenXC Group is uniquely qualified to support the BEAD Program. We provide a seamless experience from initial consultation through project completion, with a focus on quality, sustainability, and community impact.
