

GOVERNMENT INITIATIVES

ReConnect Loan and Grant Program

Through a mix of loans and grants, the program funds the construction, improvement, and expansion of broadband services in unserved and underserved rural communities. The fifth round of funding closed in May 2024, with projects anticipated to be in development through 2025, bringing high-speed internet access to rural residents, businesses, and essential services.

GenXC Group is dedicated to advancing rural connectivity through our comprehensive services in **broadband infrastructure development**. As a trusted partner in government infrastructure projects, we collaborate with state and local governments, and community organizations to bring high-speed internet to underserved rural areas.

OUR SERVICES AND COMPLIANCE

Surveying & Network Planning

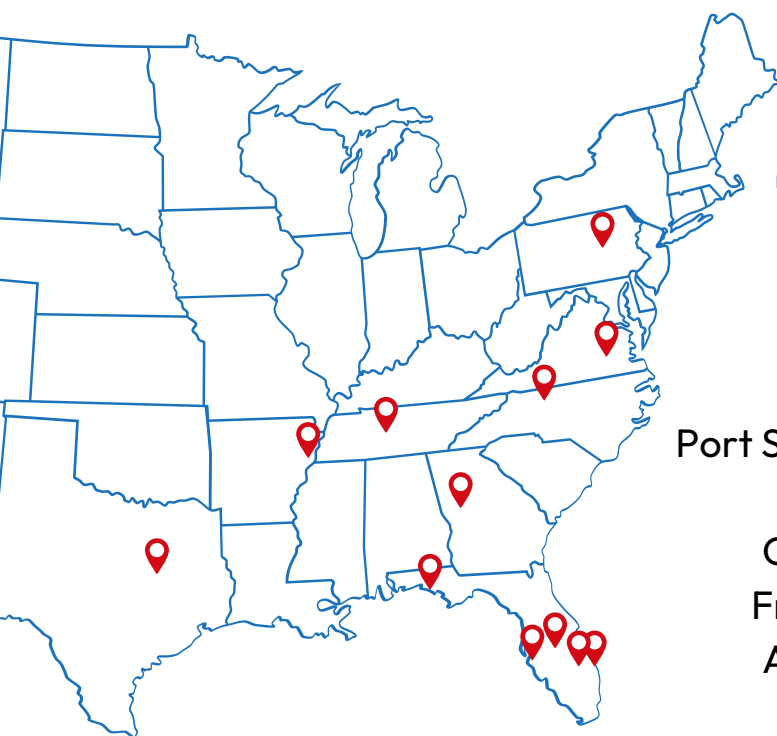

Engineering & Construction

Technical Support & Maintenance

- ✓ Strict adherence to Occupational Safety and Health Administration (**OSHA**) guidelines, creating safe working environments for all team members and stakeholders.
- ✓ Following **USDA's community engagement guidelines** to work closely with rural residents, understand their specific needs, and create infrastructure that aligns with local priorities.
- ✓ Adhering to **USDA's procurement and reporting requirements** to ensure transparency, efficient use of funds, and full accountability for grant and loan compliance.

GenXC Group offers an experienced, reliable approach to rural broadband projects under the ReConnect Program. Our solutions are tailored for the unique demands of rural areas, with a focus on quality, sustainability, and community engagement to maximize the impact of USDA funding.
